

# Competitiveness in the Digital Economy

**Accelerating Sustainable  
Digital Transformation of  
Nations through nurturing  
ICT centric Innovation  
Ecosystems**

8 October 2018

**Moe Ba- ITU**

# What Is the Nation's Vision For Technology?

Before

At Airport

On your way to the city

On accessing any service

# A highly Competitive Community or Nation?

# Impact Of Globally Connected ICT Ecosystems

Can current innovation undermine future incentives to

For example: Scale without Mass

**WhatsApp:** 300 M users, 50B message/day, 55 employees

**Netflix:** USD8.8B revenue, 3500 employees

**Dropbox:** 500M users, 1.2B files stored/day, 1200 employees

Challenges policies that target firms by measure of mass (e.g. employees) as well as competition policy, may contribute to productivity divergence across firms

Directorate for Science, Technology and Innovation, presentation at European Political Strategy Centre, 5 May 2017, Brussels

Innovation@ITU-D

## ICT vs Manufacturing

### • Alphabet:

Operating revenues: 90,272,000 Th. USD  
Employees: 72,053  
Ratio: **1253** Th. USD per employee

### • Volkswagen:

Operating revenues: 237,564,000 Th. USD  
Employees: 626,715  
Ratio: **379** Th. USD per employee

### • Facebook:

Operating revenues: 27,638,000 Th. USD  
Employees: 17,048  
Ratio: **1621** Th. USD per employee

### • Johnson & Johnson

Operating revenues: 71,890,000 Th. USD  
Employees: 126,400  
Ratio: **568** Th. USD per employee

Source: ORBIS, Bureau Van Dijk. Data refers to 2016

Champions of productivity or simply **Scale without Mass?**

# Imperative For Innovation

Companies

# There Is Always A Risk To Be Left Behind

based on M. Porter competitive strategy  
for countries & WEF classification

Source: ITU

**Is technology an enabler or the root cause of change in a Nation?**

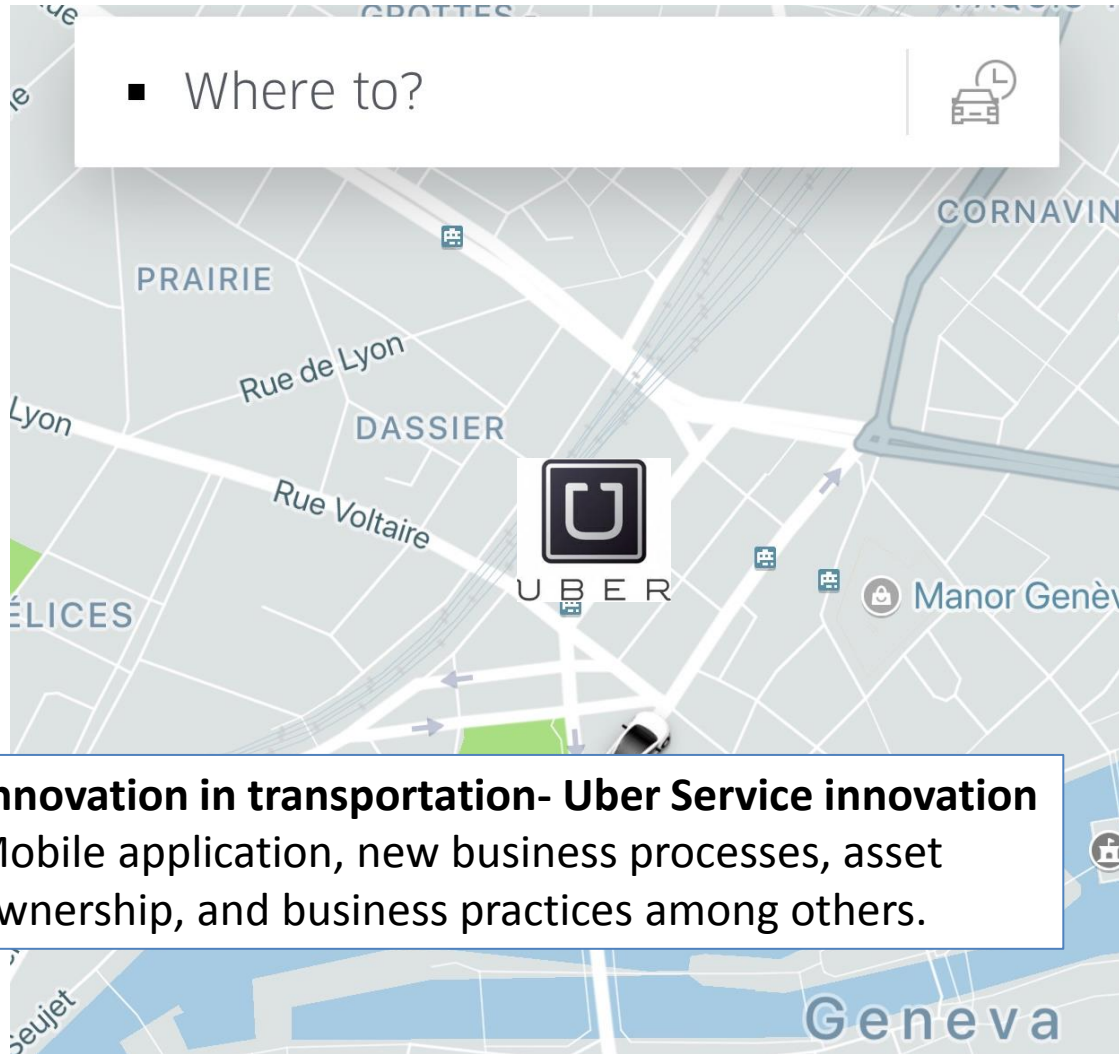

**“Entrepreneurship without Innovation is trading, and Innovation without entrepreneurship is creativity”**

# Technology Is Not The Root Cause Of Change

# The Reality Is Coming Fast

**Innovation in transportation- Uber Service innovation**  
Mobile application, new business processes, asset ownership, and business practices among others.

**Digital transformation in transportation**  
**Innovation applied** to solve a transportation problem, through the **use of ICT technologies**, led to **changes** in on demand transportation bringing significant value for customers and asset owners (car owners).

# A Common Language Always Help

**“An innovation is the implementation of a new or significantly improved product (good or service), or process, a new marketing method, or a new organizational method in business practices, workplace organization or external relations.”**

Source: OCED, Oslo manual

**“Digital transformation is what happens when innovation is applied to solve problems through the use of ICT/telecommunication technology.**

**The benefits to a country and its people are immense: significantly increased productivity, economic growth and greater employment opportunities.”**

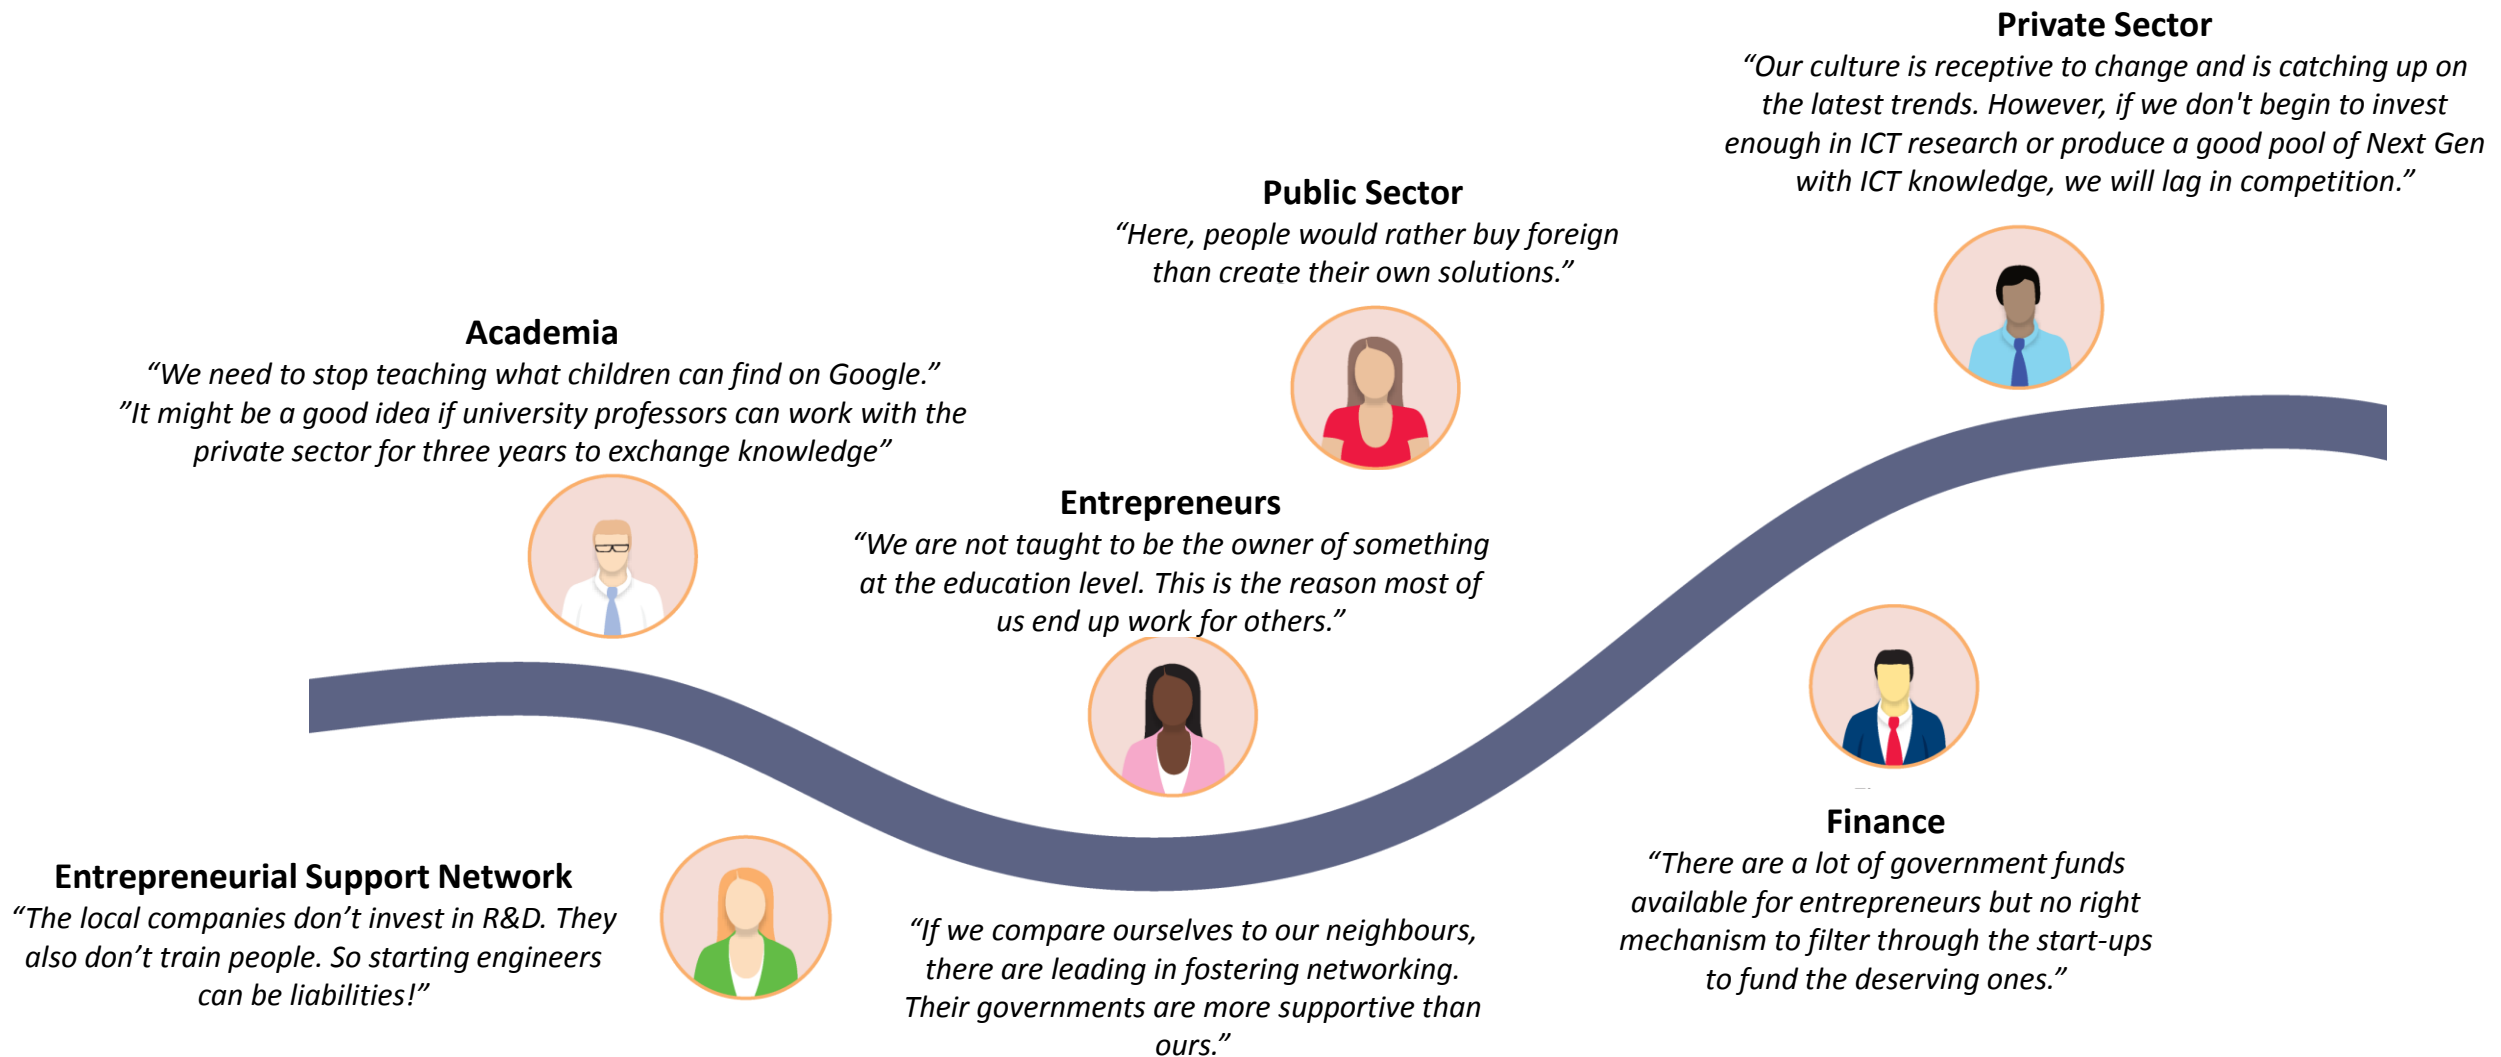

Source ITU

**“An ecosystem is a system or network of interconnecting and interacting organizations and stakeholders, from multiple sectors, who come together and address the problems people are facing within their communities.”**

Source ITU

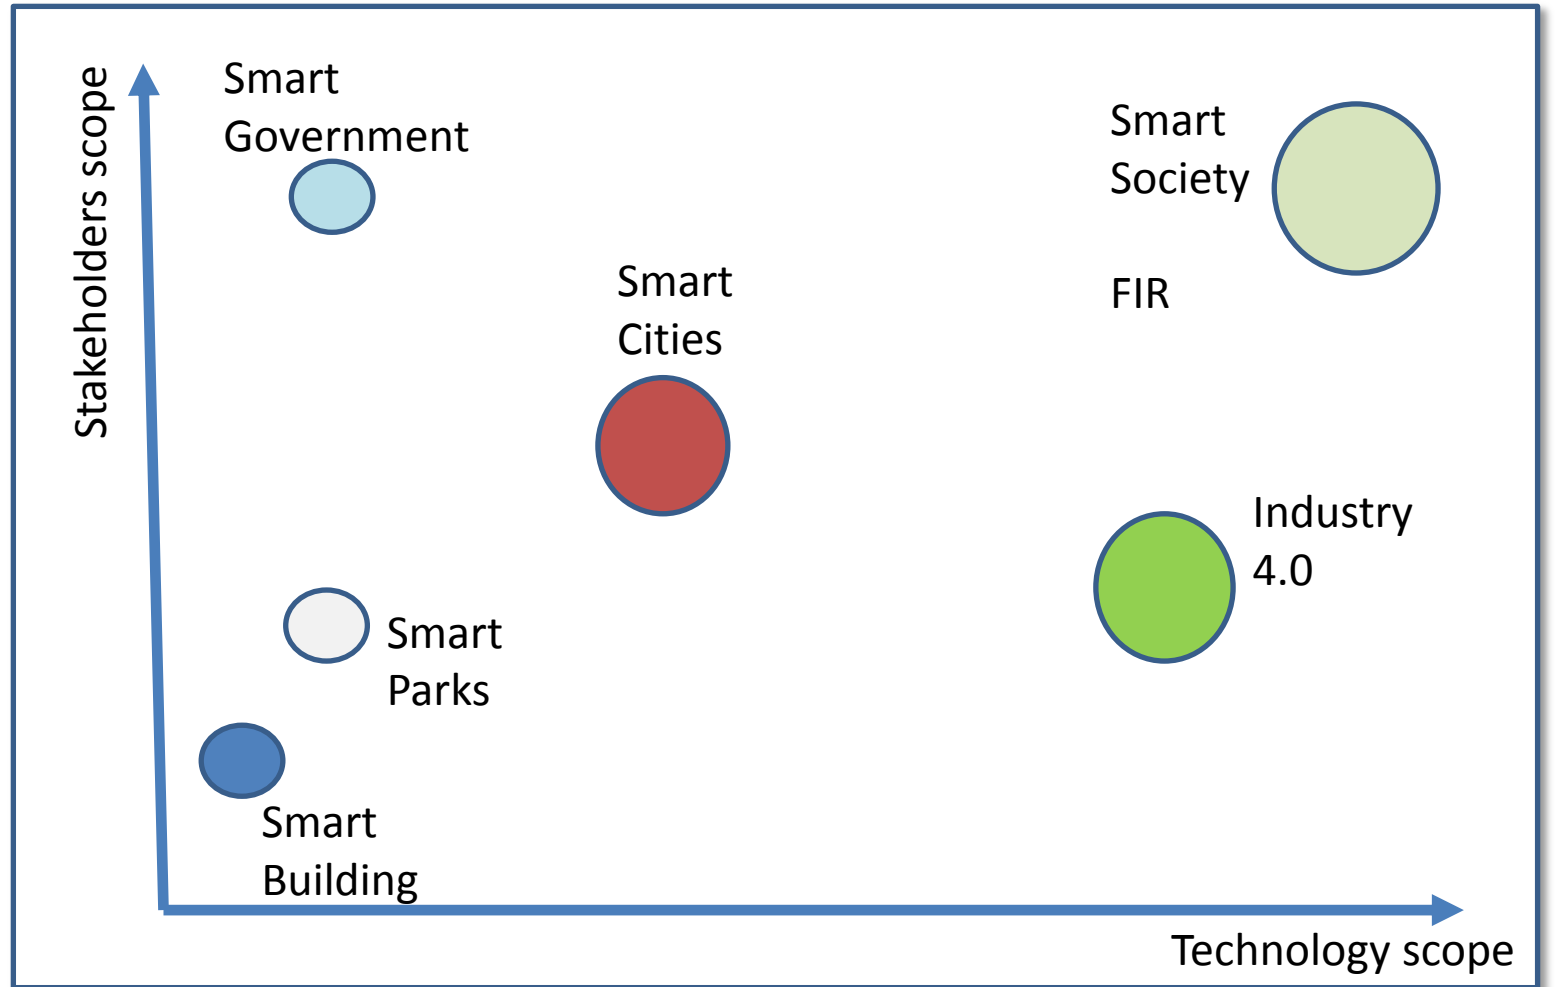

# Do Stakeholders Have A Common Language And The Same Mission?

Source: ITU country review

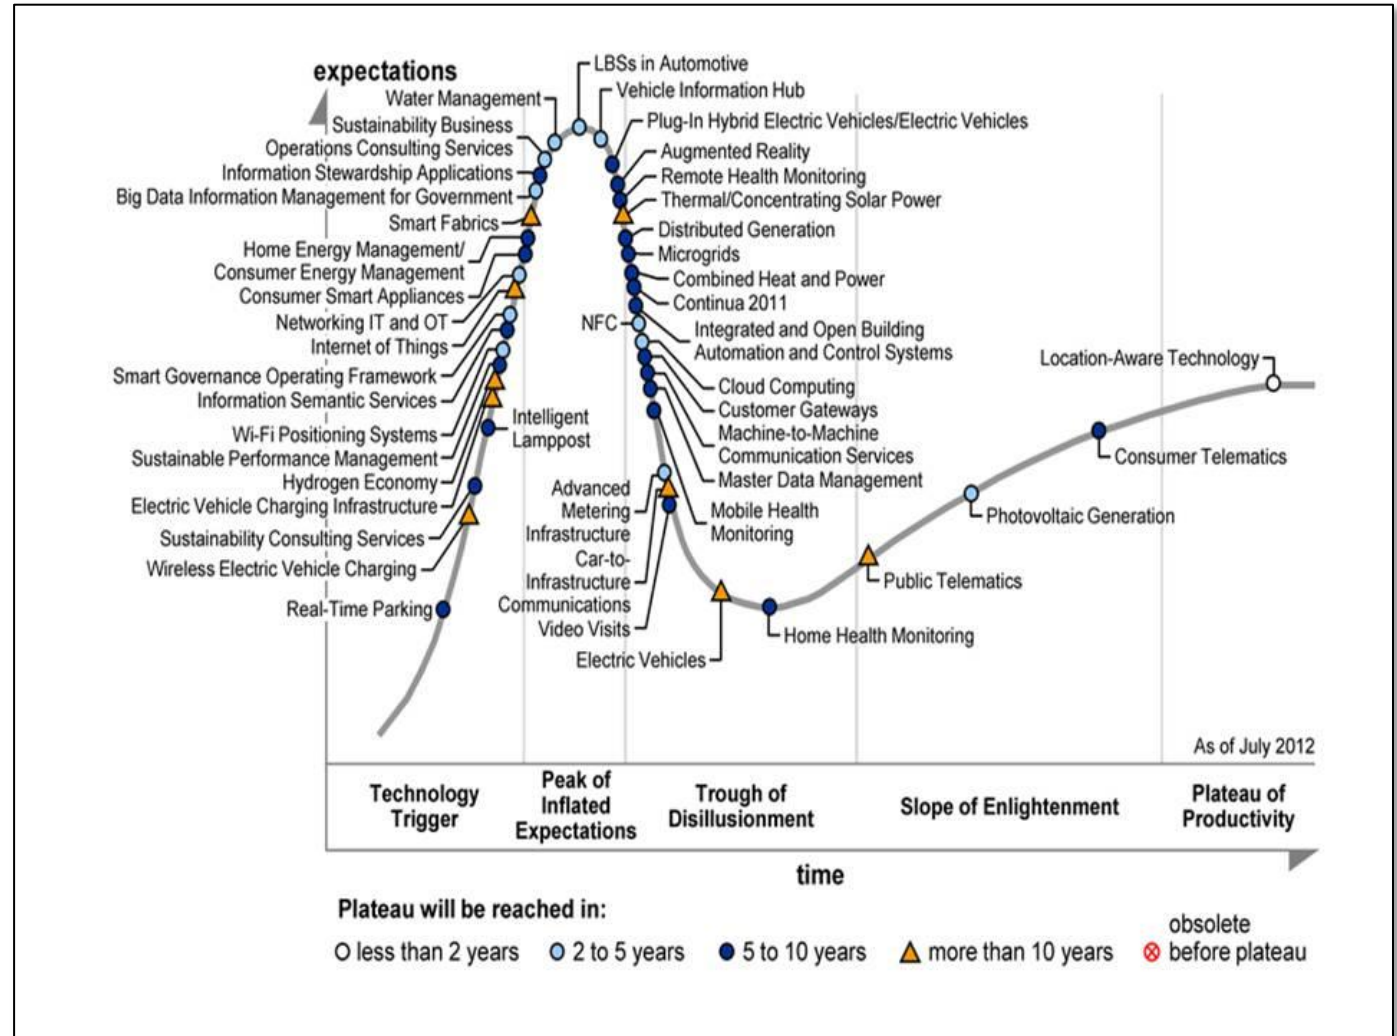

# The Mission Is More Important Than The Vision

Mission:  
Sustainable  
Digital  
Transformation  
of Society

# Technology Is Always Changing

To navigate it, an ecosystem of stakeholders need to absorb it and solve the problem of the country

Source Gartner Hype Cycle

# Technology Absorption Capacity Is Key

Source: ITU

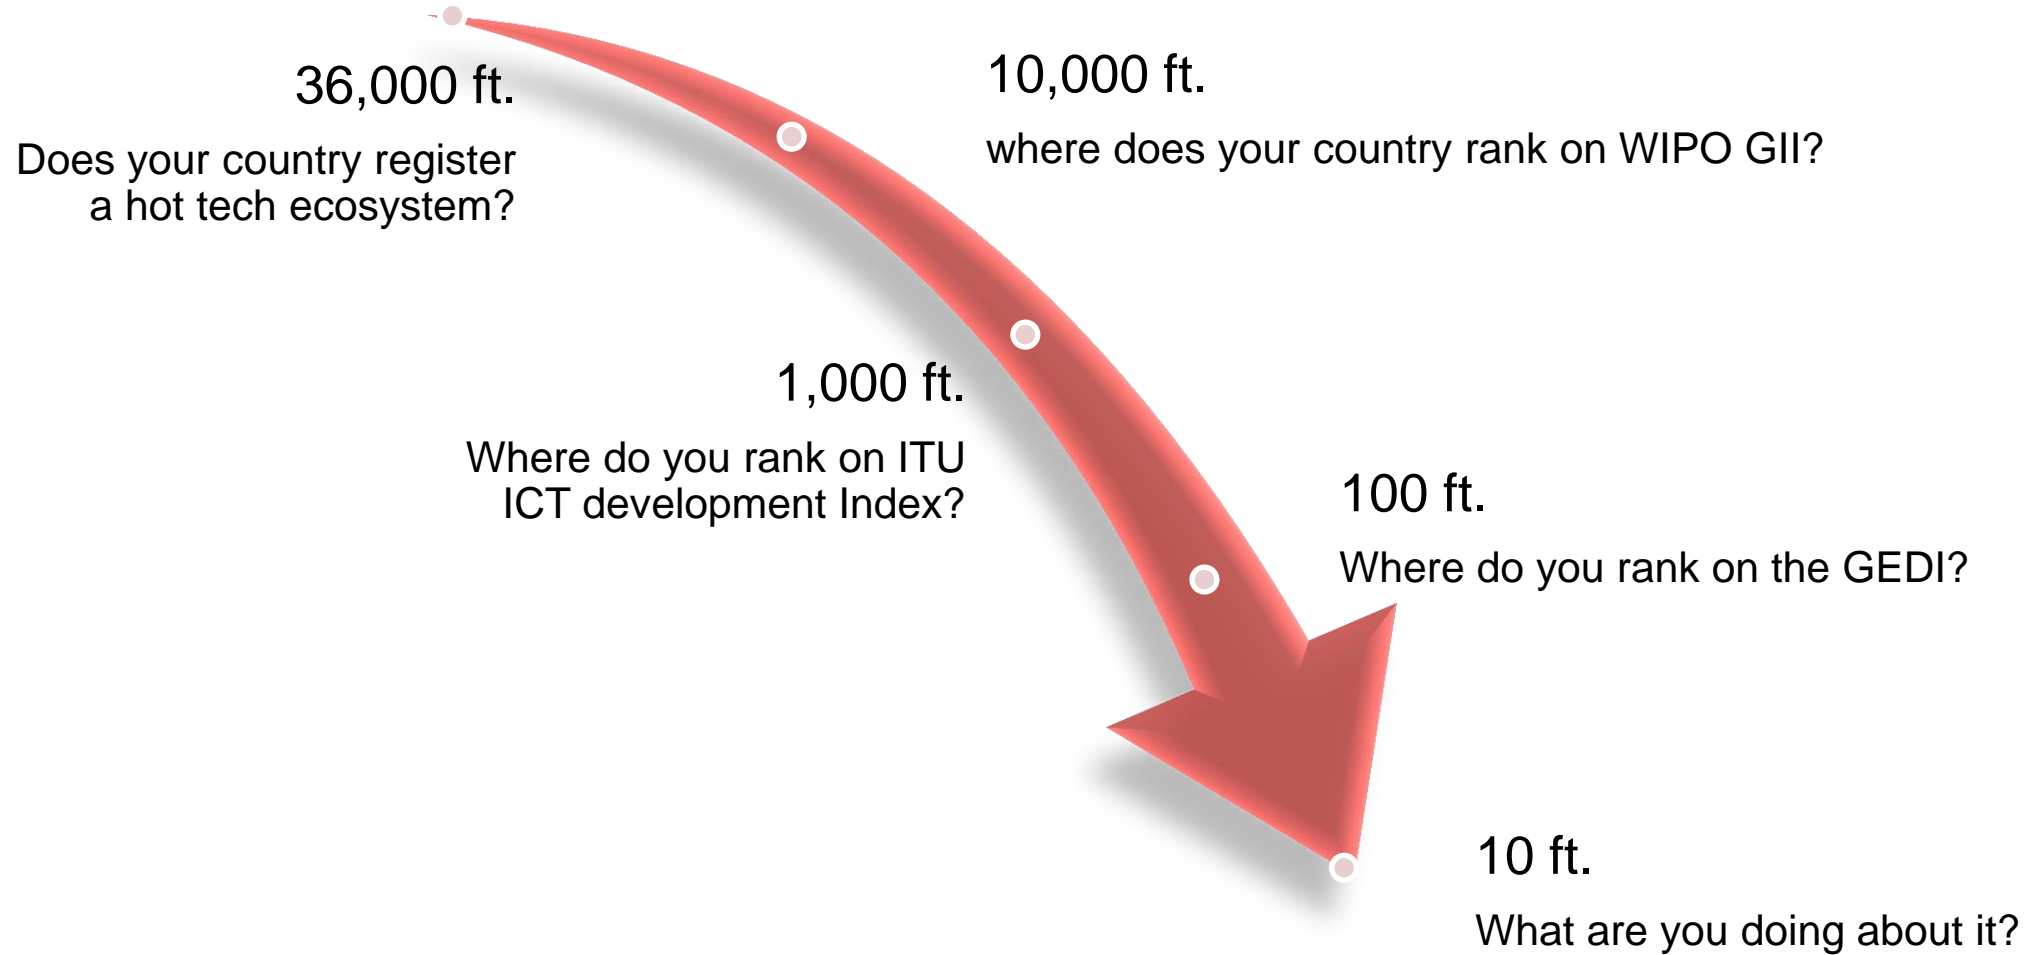

# How do we measure capabilities to absorb technology?

*Research is the transformation of money into knowledge.*

*Innovation is the transformation of knowledge into money.*

# Assessing An Environment For Digital Transformation Readiness

Leading or lagging indicators ?

# Enablers For Digital Transformation

| PILLARS |  Vision & Strategy |  Capital |  Market |  Infrastructure |  Talent |  Culture |  Policy |
|---------|---|---|--|--|--|---|--|
| ISSUES  | Scope and objectives  | Appropriate Demand side resources   | Integration of economic sectors  | Inclusive digital infrastructure   | Talent appropriateness   | Sustainable culture of entrepreneurship and innovation                                      | Comprehensive and grassroots innovation policies & programs                                |
|         | Aligned Digital strategies  | Continuum of Supply side resources  | Market access domestic and international   | Resilient & secure broadband Infrastructure<br>Soft infrastructure                                 | Champions  | Communities   | Legal frameworks   |

All stakeholders in the ecosystem need to understand their potential for making a difference, as well as their very real capabilities – as they engage in digital transformation.

What are the stakeholders doing?

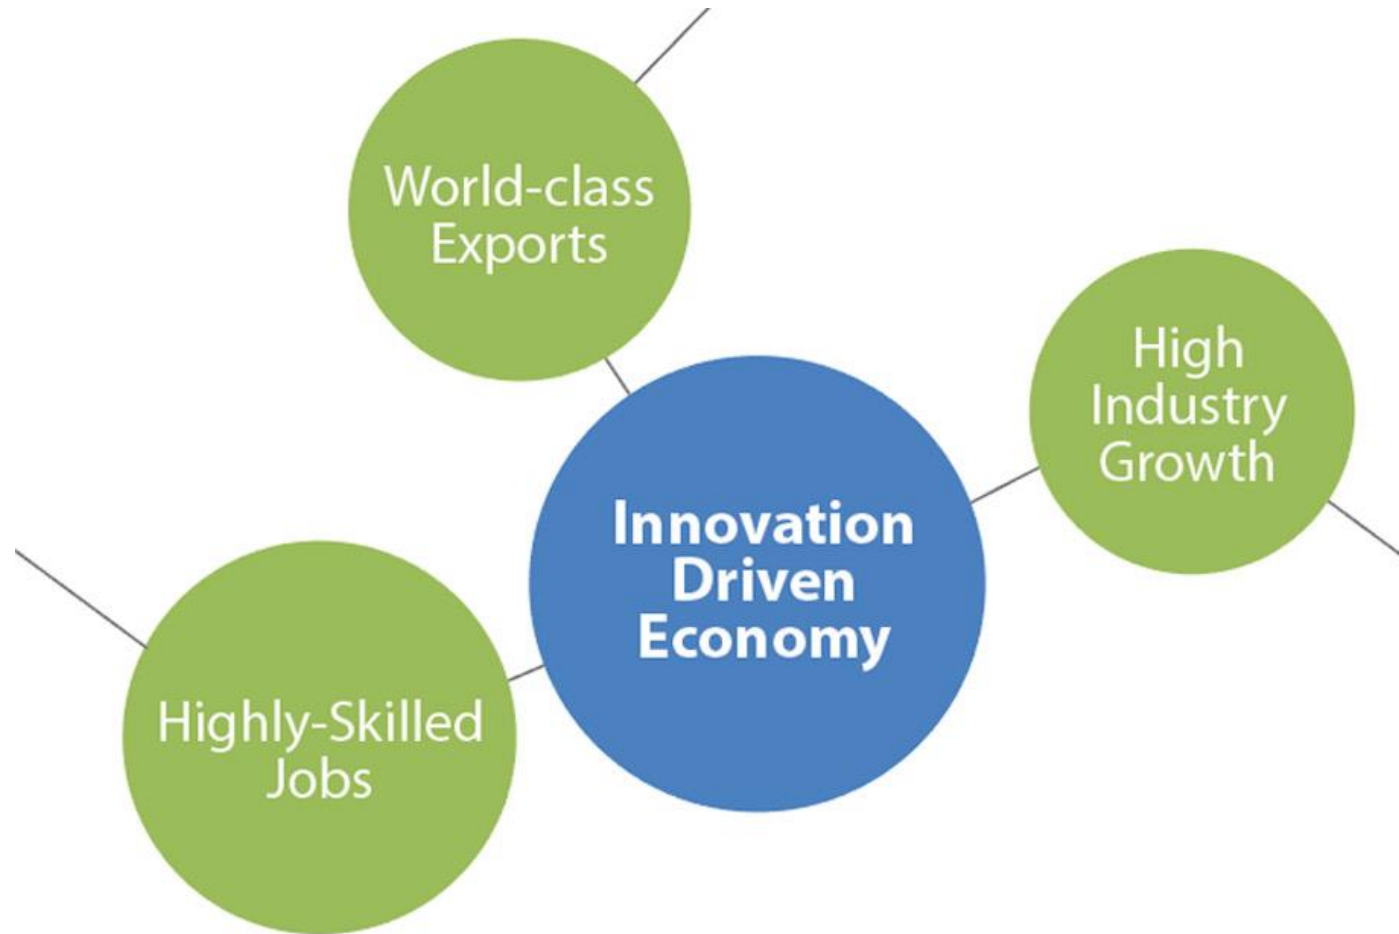

“ THE ANCESTOR OF EVERY ACTION  
IS A THOUGHT ”

---

Ralph Waldo Emerson

# An Innovation Driven Economy

# An Innovation Journey To Make a Nation Competitive

## ENTREPRENEURIAL LIFECYCLE

# Case 1: Middle income country – Sub Sahara Africa

“Young people have some talents, they have energy. But it will burn out soon if that energy is not guided or supported to help build good companies”

# New Policy Paradigm Needed

## Emergent Policy

- Policy Agility
- Experimentation Sandbox
- Leadership and roadmap

+

## Working with Good Practices

- Know how, not tech transfer
- System's Approach
- Inclusive and Open innovation

+

## All stakeholders are important

- Engaging all key owners
- Common Language
- Skin-in-the-game

=

## Digital Transformation Capacity

- ICT Centric Innovation Policy

# The Next Frontier Is All About Nurturing Ecosystems

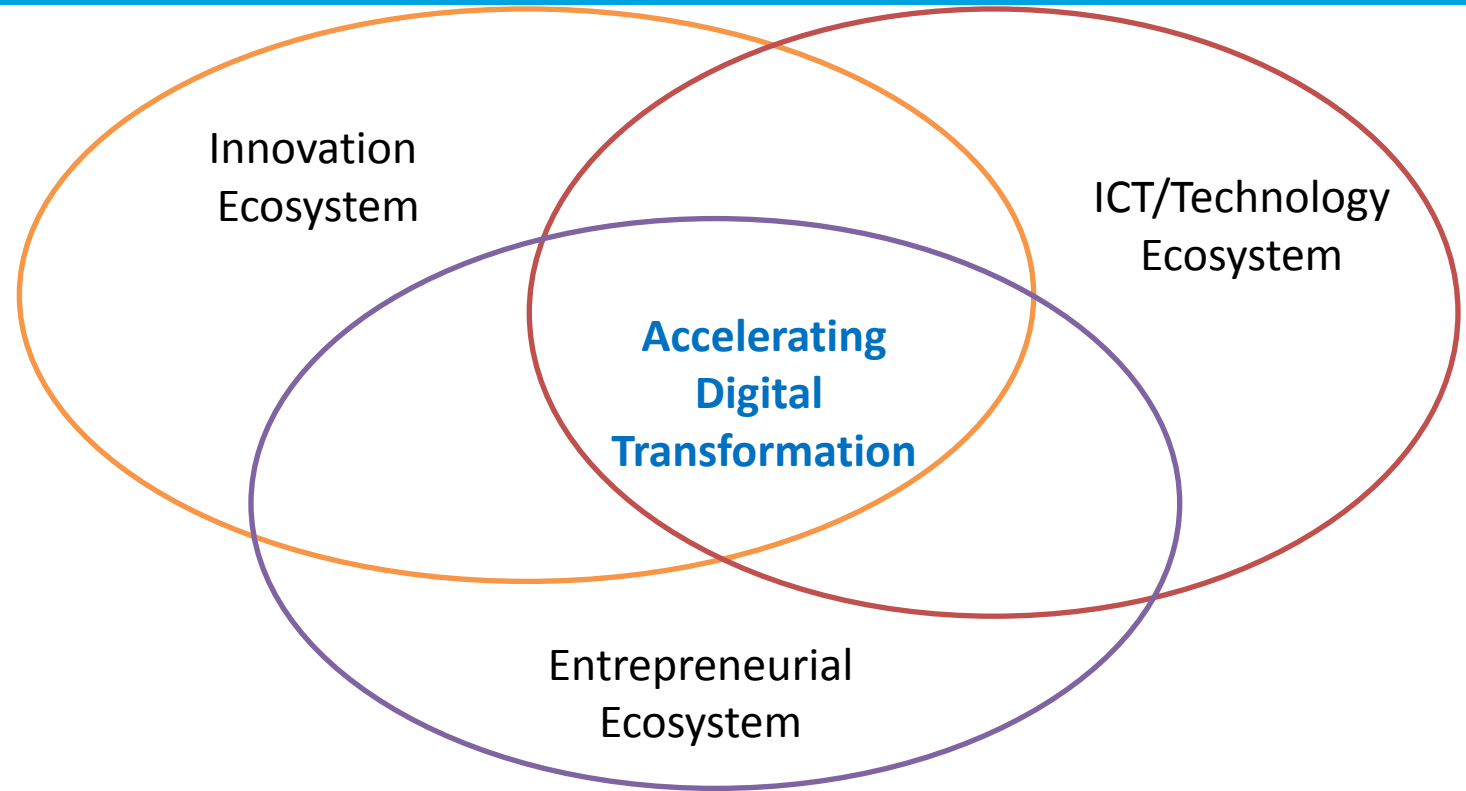

# Accelerating Digital Transformation

Amplify good working practices

Develop missing element to mature ecosystems

Create synergies with resources from innovation research, entrepreneurship, and commercialization

# Key Building Blocks For Accelerating Digital Transformation

Guiding  
Innovation  
Dynamics

Building  
Innovation  
Capacity

ICT Integra-  
tion into  
Key Sectors

## **Supportive public sector proactively managing development**

- Enablers for the development of the digital economy, digital society and digital workforce
- A strong bridging body and guiding force

## **Foster start-up and technological entrepreneurship**

- Strong infrastructure to support innovation
- Supportive programs and resources

## **Foster digital transformation and ICT-centric innovation in SMEs and enterprises**

- Key collaboration from established players
- Clusters and specific focus on digital transformation of sectors

# ITU: Mission and Goals

- **United Nations Specialized Agency** for Telecommunications/Information and Communication Technologies (ICTs)
- ITU aims at **international cooperation** among all its Member States for the improvement and rational use of telecommunications of all kinds.
- ITU fosters international cooperation and solidarity in the delivery of **technical assistance** and to upgrade the **telecommunication/ICT infrastructure and services**.
- **ITU Goals**
  - Goal 1: **Growth** – Enable and foster access to and increased use of telecommunications/ICT
  - Goal 2: **Inclusiveness** – Bridge the digital divide and provide broadband for all
  - Goal 3: **Sustainability** – Manage challenges resulting from the telecommunication/ICT development
  - Goal 4: **Innovation and partnership** – Lead, improve and adapt to the changing telecommunication/ICT environment

# ITU: Membership and Structure

193

MEMBER  
STATES

700+

SECTOR  
MEMBERS

133

ACADEMIA  
MEMBERS

3  
SECTORS

Standardization

Radiocommunication

Development

Each sector has  
specific mandate,  
but all work  
cohesively towards  
connecting the  
world

# Some Ways We address The Issues

## Innovation Frameworks

- **Scalable approach** through toolkits/frameworks that map key barriers in the ecosystem and assist stakeholders through their innovation journey

## Innovation Capacity building

- Innovation **ecosystem development skills** through series of training and certification of national experts

## Customized assessments

- **Foster digital innovation and entrepreneurship** through national experts or ITU

## National, regional or global flagship projects

- Based on customized **assessment outcome, bankable projects** identified & developed to nurture innovation capabilities that accelerate digital transformation

## Knowledge Sharing

- **Good practices** sharing and innovation community development through **regional innovation forums, global innovation, workshops, reports, etc.**
