Research Funding Opportunities for PhDs

2 things you can do this week that will make your PhD journey easier:

Pivot-RP™

Pivot RP

Login to Pivot RP, do a search for funding opportunities in your specific field, save it and click yes on a weekly email alert for your search.

<https://pivot.proquest.com>

ORCiD

Create your account, if you don't have one yet

Add your affiliation (Unifr) and works

Look for your profile in other services and link them to ORCiD

ORCiD
Connecting research and researchers

A unique identifier for researchers

Uniquely yours. Distinguish yourself, reduce the negative consequences of name changes or misspellings, and **claim credit for your work**, no matter how many people have your same (or similar) name.

More time for research. Reduced administrative burden, application forms can be auto-populated, more time conducting your research and less time managing it!

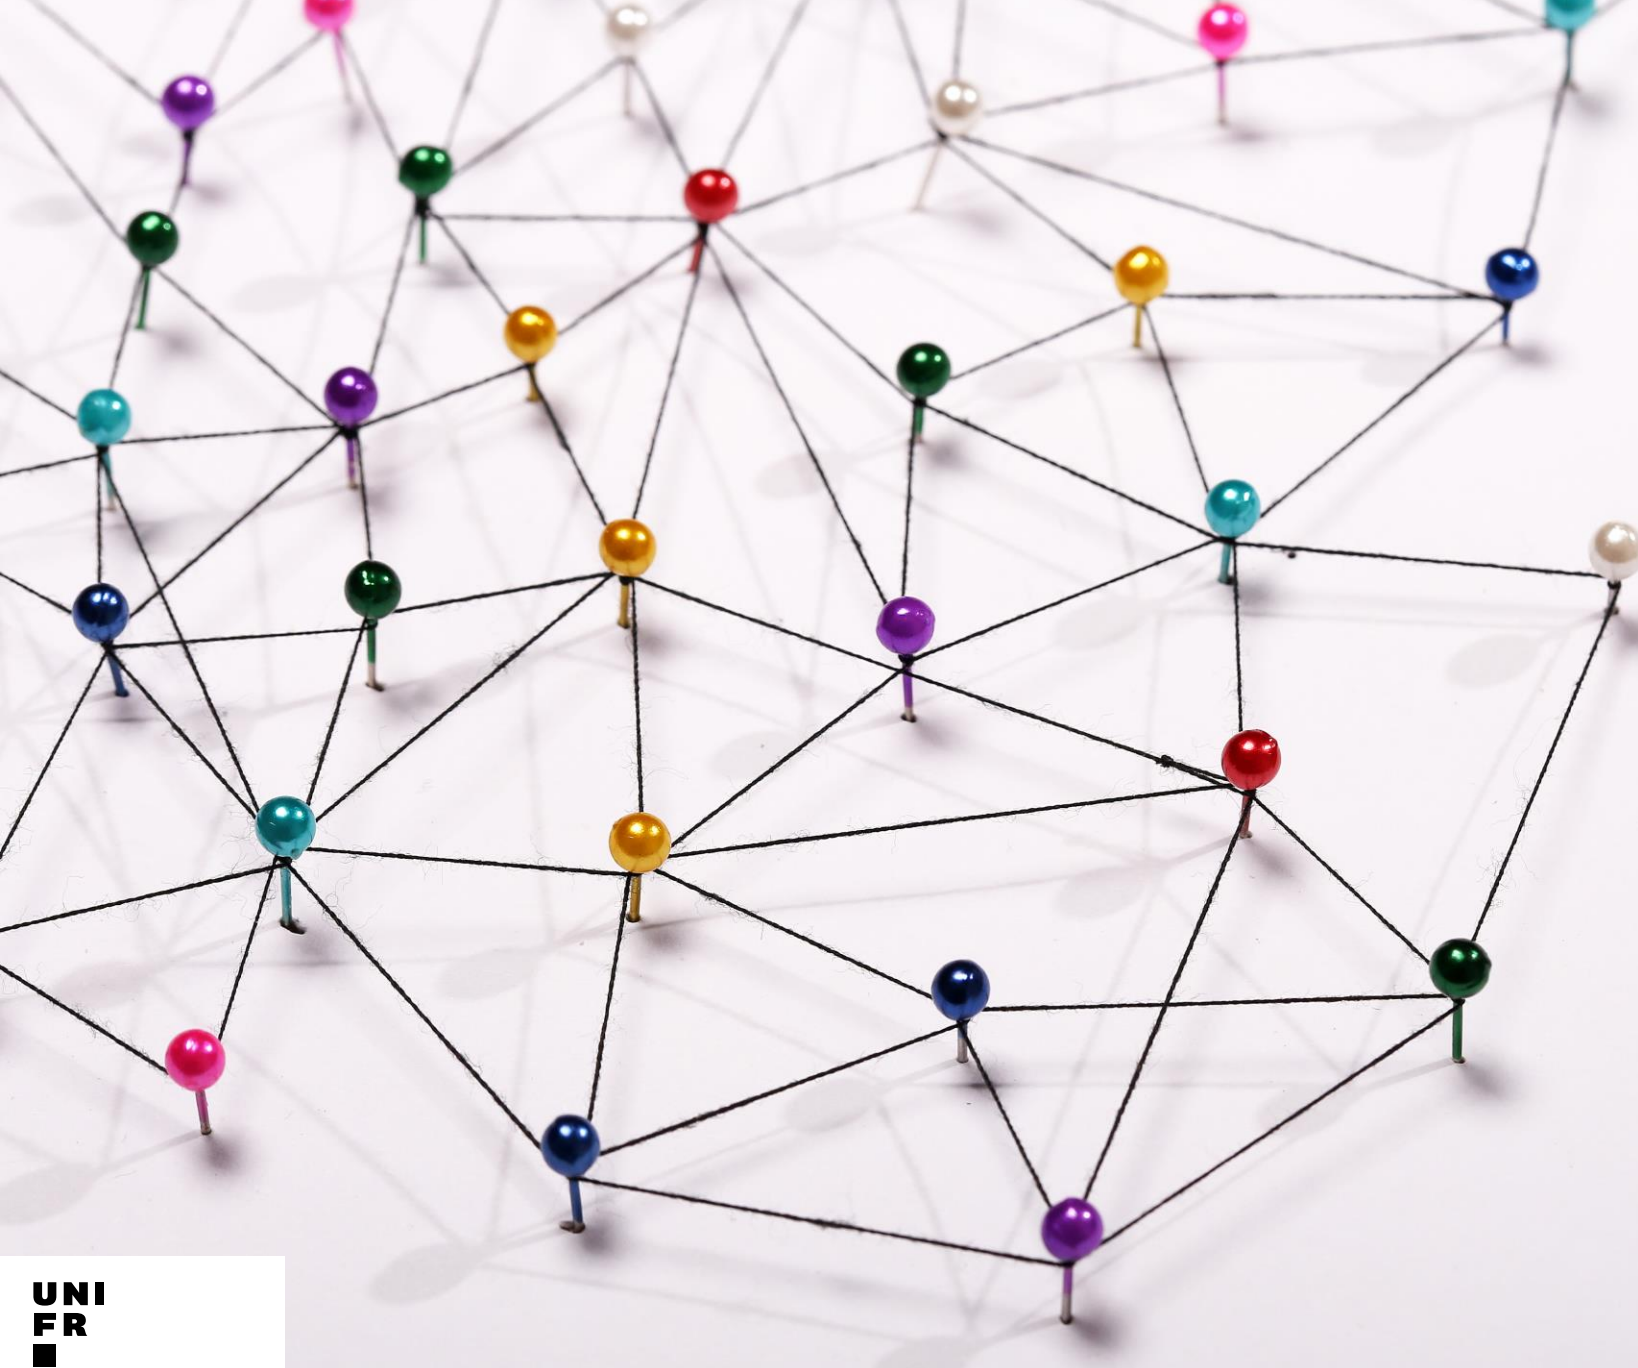

Portable profile data. Easily share the data in your record with an increasing number of funding, publications, data repositories, and other research workflows. **Your ORCID goes with you if you change affiliation.**

<https://orcid.org/0000-0001-2345-6789>

First Steps

1. Go to [ORCID.org](https://orcid.org) and search for your name
2. Create account (3 steps, 1 minute)
3. Set work affiliation (*please!*), define biography, education, qualifications (*like a CV, but not exactly*)
4. If you already have works or publications add them (for example with [Scopus](#), [Web of Science](#))
5. More information including webinars and manuals can be found in [SPR's ORCID web page](#)

research@unifr.ch
