**Deadline**

*April 1, 2025*

## Opening

The Department of Mathematics invites applications for

# two PhD Positions in Mathematics.

The positions will start on the 1st of September 2025, or soon after, and will be under the supervision of Professors Enrico Le Donne or Hugo Parlier.

Candidates should hold a Master degree in Mathematics and have a strong background in Analysis or Geometry. The PhD thesis projects are at the intersection of several research areas in modern geometry, analysis, and combinatorics, with an emphasis in metric and sub-Riemannian geometry (Le Donne) and geometric and combinatorial topology (Parlier).

Applications have a deadline of April 1, 2025. Late applications will be considered until the positions are filled.

For more information on the department, see [www.unifr.ch/math](http://www.unifr.ch/math).

Applications should be sent by email and should include

- a letter of motivation
- a copy of university transcripts and diplomas
- a curriculum vitae (with contact details of 2 possible references).
