Mobiliar Research Cluster for Resilience
Call for Research Projects
2026-2028

Review by STC-Member

Please submit the result of your review by June 27th, 2025, to: steve.heinke@unifr.ch

Project

Project title:

Assessment of the Application

Please select a rating from 1 to 9 in the evaluation field.

Assessment		9 - 1
Overall	**The overall and summative quality of the project** (can be a subjective weighted average of the subscales)	
Project	Quality of the research sketch	
	Originality of the research project	
	Feasibility of the project	
	Interdisciplinarity of the project	
	Transdisciplinarity of the project	
	Practical relevance / Implementation potential of the project	
	Societal and/or economic benefits of your project	
All-Projects-Professors	Fit of the co-leaders	
	Fit of the additional members	
Projects seeking extension	Project's key accomplishments	
	Concrete outcomes and practical solutions	
Projects-Post-Docs	Academic achievements of the applicant	
	Fit of project into academic career	
	Fit of the applicant with the main sponsor	
	Fit of the applicant with the second sponsor	
Contributions	Contribution to the research environment at the Uni FR	
	Contributions to the hosting departments	
	Contribution to the cluster	

Assessment Scale	**9** Convincing in all relevant aspects. No or negligible weaknesses.	**7** Convincing in most relevant aspects. Few clearly identified weaknesses.	**5** Convincing in several relevant aspects. Some clearly identified weaknesses.	**3** Certain strengths in relevant aspects. Several clearly identified weaknesses.	**1** Few or no strengths in relevant aspects. Many significant weaknesses.

Recommendation: Please tick one of the following options

I. This sketch should be developed into a full-project proposal
II. This sketch can be developed into a full-project proposal and incorporate the following feedback
III. This sketch should not be developed into a full-project proposal

Mobiliar Research Cluster for Resilience
