Using ORCiD to collect your publications and fundings and to have them appear on the UniFr directory !
UNI FR

Create an ORCiD iD record

ORCiD Connecting Research and Researchers

Go to orcid.org and click on *register*. It takes a minute to obtain your ORCiD iD.

Oh look ! My paper just got published

I know. It's already on the UniFr directory!

Thanks to ORCiD:

- Publications and research activities are correctly attributed to you
- Less form-filling burden: you enter data once, it is re-used often
- Plus all your data on ORCiD is under your direct control
- Easier connection with funders, publishers

Include your ORCiD number when submitting a manuscript

Link your ORCiD number in MyUnifr

Every new publication is automatically sent to ORCiD and appears on the UniFr directory !

These publications systems are connected to ORCiD

ArXiV	DOI
CAB abstracts	ISNI
Clarivate	Loop
CrossRef	Publons
DataCite (Figshare)	PubMed
DBPL	SCOPUS-Elsevier
DimensionsWizards	SSRN
DNB	Web of Science

These organisations accept ORCiD identifiers

SNSF
H2020
PubFacts
ProQuest
Impactstory
SciCV
Swiss edu-ID
Zenodo

ORCiD can read bibtex files from these databases

Biblioteque Cantonal (BCU)
EndNote
Mendeley
Citavi
Google Scholar
ReadCube
Zotero

Using ORCiD – Tips and tricks

Setting ORCiD Record

1- You control the visibility settings for each item in your record, publication, funding or review work.

There are three visibility settings:
- Everyone
- Trusted parties
- Only me
To enable other systems to update the profile it must be set everyone or trusted parties.

**2- Set up the primary Email @unifr.ch** and a private backup Email

Account settings
Email and notification preferences
My email addresses
3- Add your research keywords

Keywords
Vitis, Metabolites, Natural products, Fungi

Delegate the management of your profile in ORCiD

The management can be delegated to **a trusted person**.

View my ORCID record
Inbox (27)
Account Settings
In the section **"Trusted individual"** Find the person's account by entering their name, email or ORCiD iD.

Trusted individuals
Search for ORCID users to add as trusted individuals.
ORCID iD, email address, or names   Search
ORCiD is Interoperable with institutions, funders, publishers.

Import you works by connecting your iD to another systems and link to information in their records.

Include your ORCiD as you submit your manuscript.

The auto-update is triggered when the **researcher submits an article to a journal**.

Link with the Research Information System (*SIR*)

The University of Fribourg recommends to create your ORCiD and link it to the University directory and the Research Information System (SIR) via MyUnifr.

1- Link your ORCiD to MyUniFr

From the section "My research Activities" in MyUnifr

- Connect to ORCiD and authorize MyUniFr access to your account.

Recherche · Research activities · **My research activities**

My research data

ORCiD
Connecting Research and Researchers
Member Organization

Your ORCID iD is not yet configured

By clicking below, you will delegate to the Campus-management system of the University of Fribourg the right to publish your work directly on ORCID.

Create or connect your ORCID iD

How to create your ORCID researcher ID

2-Link your works via ORCiD and manage your directory profile

ORCiD ⇄ 🔒 MyUnifr

After linking with ORCiD, "My research Activities" can read the contents from your ORCiD and it can also write into it, for example it can send to ORCiD publications from FOLIA and FUTURA, or projects from the SNSF and FUTURA. The main functions are:

- "Push" publications and projects to ORCiD.

- Creating lists of projects and publications to be **displayed and automatically updated** on the UniFr directory.

Upload your previous publications

1- Import works from another systems

Via the section **Works**, **+Add works** then **+Add ArXiv ID / +Add DOI / +Add PubMed ID / etc…**, Add work using an identifier : DOI (Crossref, DataCite), ArXiv ID, PubMed ID.
+ Add works
☁ Search & link
⚲ Add ArXiv ID
◎ Add DOI
📄 Add PubMed ID
ORCiD can connect to other information systems and automatically import all your publications, for examples: Scopus, ISNI, EuroPMC.

### 2- Import works from a BibTex file

ORCiD allows to import records from **BibTeX files (.bib)** to integrate the references into the profile.
BibTex file can be exported from **Google Scholar** and citation management tools such as **EndNote, Mendeley, Zotero, Citavi, etc…**

+ Add works
📄 Import BibTeX

3- Add works manually

To add a work by hand, click on "**+Add work**", then on "**Add manually**", a box will appear enabling you to complete for a manual work quotation.

+ Add works
+ Add manually
Add your grants and fundings

Importing your awarded grants is easy. Via **Funding ,+Add funding**. You can link to "**DimensionsWizard**" .Dimensions's integrated, continuously-updated data includes grants from over fifty funders in your ORCiD record.
